

COMPLEX CABLE ASSEMBLY AND MODULE PRODUCTION

www.rkb-ag.de

ALWAYS A GOOD CONNECTION

About us

For more than 20 years, our customers have valued us as an efficient partner for cable assembly, component assembly, development support and system solutions.

We have made a name for ourselves across the sectors of plant and mechanical engineering, medical technology, construction machinery and commercial vehicles, rail vehicles, heating, refrigeration and air conditioning technology, cooling systems, play and leisure electronics and automotive engineering.

Always a good connection

In general, high-quality wire harnesses and cable sets are produced for applications with multiple point-to-point area connections for connecting various electronic components. If required, application-specific connectors are installed.

Customer-specific cable assembly

In particular, the production facility is equipped with state-of-the-art automated machinery. RKB electronic AG can resort to experiences in the production of special cables for applications in various fields of industry. Based on drawings, almost every customer-specific cable can be assembled for you.

Electrical final test

We guarantee a 100% electrical final inspection and this is a matter of course for us.

Component assembly

We manufacture assemblies, individually according to your specifications and requirements for sampling, as a prototype as well as for the pilot series until the start of production.
